O que é o React Native?

Projeto desenvolvido pelos engenheiros do Facebook

Viabiliza a criação de aplicações nativas para as plataformas iOS e Android

Permite utilizar ECMAScript 6, CSS Flexbox, JSX, diversos pacotes do NPM e muito mais.

Permite fazer debug na mesma IDE utilizada para o desenvolvimento nativo

Quem usa o React Native?

O dia a dia com React Native

O que eu preciso pra rodar esse negócio?

Dá muito problema?

Full StackOverflow?!?!

É bala de prata?

Da última vez a demo não rodou hahaha

FGSL

*"O maior risco é não correr nenhum risco.
Em um mundo que está mudando
rapidamente, a única estratégia que
certamente vai falhar é não correr riscos."*

Mark Zuckerberg
